PROFESSIONAL SUMMARY

An analytical BSc Information Technology graduate with a strong foundation in full-stack software development, skilled in programming languages like C# , JavaScript , TypeScript, Python and SQL combined with skills in data analytics, cyber security, and artificial intelligence. Proven ability to develop efficient, user-facing digital solutions writing clean, efficient code and a keen understanding of the full software lifecycle, including creatively debugging issues, testing, maintenance, and continuous improvement using Git version control. Passionate about using emerging technologies like AI-assisted development tools. I am a collaborative and adaptable individual with excellent communication skills, eager to contribute to digital transformation and platform-led innovation and to grow within a structured company.

EDUCATION

North West University | Feb 2022-Dec 2025

BSc Information Technology - GPA : 69%

- Relevant Coursework - Software Engineering, Information Security, Database Systems , Networking ,Operating Systems, Decision Support Systems, Artificial Intelligence, OOP. IT Support
-

WORK EXPERIENCE

IT Intern

Kyotech SA | March 2026 - Present

- Proactively capture and document client information accurately to streamline onboarding and maintain absolute data integrity.
- Provide agile on-site and remote technical troubleshooting, network support, and IT consulting to ensure reliable, continuous business operations.
- Assist with network security and risk awareness.

Graphic Designer

Blackout Communications | July 2023 - Feb 2025

- Created unique visual solutions for community-centric and corporate campaigns, demonstrating adaptability, proactiveness and boosting engagement by 35%.
 - Developed strong customer focus developing strong communication and interpersonal skills.
 - Managed time and priorities effectively to deliver high-quality work against tight deadlines, showcasing a strong work ethic.
-

SKILLS

- **Programming:** C#(.NET), Java, JavaScript, Node.js, React , HTML, CSS, Typescript, Python, C++
 - **Systems Analysis & Design:** API Design, System design, Database Design,
 - **Data analysis:** Python, PowerBI, Microsoft Excel, Data Integrity, Validation, Data Cleaning
 - **Databases & Tools:** SQL (MySQL,PostgreSQL,MSSQL) ,Git, Postman, Microsoft Office Suite.
 - **Cybersecurity:** Information security principles, risk assessment, access control, network security
 - **Cloud Infrastructure :** AWS , Azure
 - **Design & Prototyping:** UI/UX , Figma, Adobe Suite
 - **Core Competencies:** Problem- Solving, Analytical Thinking, Team Collaboration,Communication, Attention to Detail, Time Management , Adaptability, Resilient, Proactive.
-

PROJECTS

LMS Readiness Assessment Platform | JavaScript (Node.js, Express, React), SQL

- Developed full-stack application using JavaScript (Node.js, Express, React) and MySQL
- Built RESTful APIs with user authentication and data processing capabilities and designed and maintained SQL database structures to ensure data integrity and efficient reporting.
- Wrote unit tests, performed debugging, and participated in code reviews to maintain quality standards

INMED South African Website | Typescript (Vite,React), Firebase

- Created a responsive website using TypeScript and React with Firestore database boosting web traffic by 60%.
- Designed interactive dashboards to visualize impact results , transforming complex data into actionable, data-driven insights for key stakeholders
- Worked in SCRUM agile-like team environment collaborating with peers on code reviews, sprint planning.

Enterprise Network Design | Cisco Packet Tracer

- Designed a secure enterprise network with VLAN segmentation, access control lists, and port security.
- Applied risk assessment principles to identify and mitigate network security vulnerabilities.
- Implemented network security controls to protect sensitive data.
- Documented risk mitigation measures and security configurations.

LANGUAGES

- **English:** Fluent
- **Zulu:** Fluent
